

H2CE Final Project Conference

**Highlight from Northwest Brandenburg Hydrogen
Action Plan:**

Measure 2.1 - Flagship Project Modular Rail

Region „Mitte Nordost“ (860.666 Einwohner; 18.359 km²)

H2CE

One of the sparsely populated regions in Germany - low rate of industrial development

High potentials für renewable energies (sun and wind) due to spatial extent and favorable wind conditions

Already high expansion of renewable capacities → many more to be approved in the next years

H2CE

Railways owned by DESAG GmbH Renewable energy sites along the

Project Modular Rail:

Establishment of a scalable, multi-stage infrastructure together with a supply system along the existing railway lines
